

Dear Parents/Guardians,

As we introduce the AR program (Accelerated Reading), we want to inform you that the list is available on the PACA website. This list has the books for which PACA has AR comprehension tests.

When your child reads an AR book, please write and send to your child's teacher, the title and author of the book. Your child will be able to **take the comprehension test on the computer at school.**

The AR program will motivate and encourage them to read more and build on their comprehension skills. Building the skill of computer technology will also help them in future activities. It will give parents and teachers insight on what students actually understand about the material that is being read.

We are excited about this program and want to ensure a successful reading experience for your child. If you have further questions regarding AR, our media specialist, will be glad to assist you.

Thank you, and let's READ!!!
